Group Financial Results

For the year ended 31 December 2023

Bank of Cyprus Holdings

DISCLAIMER

The financial information included in this presentation is not audited by the Group's external auditors.

The Group statutory financial statements for the year ended 31 December 2023, upon which the auditors have given an unqualified report, can be found on the website (<https://www.bankofcyprus.com/en-gb/group/investor-relations/reportspresentations/financial-results/>).

This financial information is presented in Euro (€) and all amounts are rounded as indicated. A comma is used to separate thousands and a dot is used to separate decimals.

The Results Announcement includes an update regarding the FY2023 proposed cash dividend and share buyback (together, the "Distribution"), following approval from the ECB in March 2024. Capital ratios and MREL have been updated accordingly. Additionally, ROTE calculated based on tangible shareholders' equity after deducting for the proposed distribution was added in the presentation. The Distribution policy was updated to include cash dividends and buybacks. Other than disclosures related to FY2023 Distribution, there were no other meaningful divergences from the Preliminary Group Financial Results for the year ended 31 December 2023 published on 19 February 2024.

On 1 January 2023, the Group adopted IFRS 17 'Insurance contracts which replaced IFRS 4 'Insurance contracts'. Comparative data have been restated accordingly, unless otherwise stated (for further information refer to Note 2.2.1 of the Consolidated Financial Statements for the year ended 31 December 2023).

Except in relation to any non-IFRS measure, the financial information contained in the Investor Presentation has been prepared in accordance with the Group's significant accounting policies as described in the Group's Annual Financial Report 2023.

The Investor Presentation should be read in conjunction with the information contained in the Press Release and neither the financial information in the Press Release nor in the Investor Presentation constitutes statutory financial statements prepared in accordance with International Financial Reporting Standards.

Forward Looking Statements

This document contains certain forward-looking statements which can usually be identified by terms used such as "expect", "should be", "will be" and similar expressions or variations thereof or their negative variations, but their absence does not mean that a statement is not forward-looking. Examples of forward-looking statements include, but are not limited to, statements relating to the Group's near term, medium term and longer term future capital requirements and ratios, intentions, beliefs or current expectations and projections about the Group's future results of operations, financial condition, expected impairment charges, the level of the Group's assets, liquidity, performance, prospects, anticipated growth, provisions, impairments, business strategies and opportunities. By their nature, forward-looking statements involve risk and uncertainty because they relate to events, and depend upon circumstances, that will or may occur in the future. Factors that could cause actual business, strategy and/or results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements made by the Group include, but are not limited to: general economic and political conditions in Cyprus and other European Union (EU) Member States, interest rate and foreign exchange fluctuations, legislative, fiscal and regulatory developments, information technology, litigation and other operational risks, adverse market conditions, the impact of outbreaks, epidemics or pandemics and geopolitical developments. This creates significantly greater uncertainty about forward-looking statements. Should any one or more of these or other factors materialise, or should any underlying assumptions prove to be incorrect, the actual results or events could differ materially from those currently being anticipated as reflected in such forward-looking statements. The forward-looking statements made in this document are only applicable as at the date of publication of this document. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained in this document to reflect any change in the Group's expectations or any change in events, conditions or circumstances on which any statement is based. Changes in our reporting frameworks and accounting standards, including the recently announced reporting changes and the implementation of IFRS 17 'Insurance Contracts', which may have a material impact on the way we prepare our financial statements and (with respect to IFRS 17) may negatively affect the profitability of Group's insurance business.

NII Remains Strong >€670 mn as Rates Decline

Outlook

- 2024 a transition year with an expected declining interest rate environment; 2024 at >€670 mn, with quarterly declining trend during the year

Assumptions on Projections

- 2024 time & notice deposit pass-through to increase to 40%¹ from 18% in 4Q2023; rate cuts expected to be passed gradually to new deposits; slow repricing of the back-book expected in 2025
- Gradual change in deposit mix; time & notice deposits from c.32% (Dec 2023) to c.45% (Dec 2024)
- Low-single digit loan growth p.a. in 2024-2025, supported by GDP growth
- Repricing of loans to lower Euribor rates (in anticipation of ECB depo rate cuts). Projected average 6m Euribor rate for 2024 at 3.2% (vs 3.7% for 2023)
- Higher wholesale funding costs reflecting a full year of 2023 MREL cost and further planned issuance
- Structural hedging to continue; partial hedge of Non Rate Sensitive Deposits through receive fixed interest rate swaps and conversion of floating assets to fixed rate to reduce NII volatility (see slide 13)
- Expansion of fixed income portfolio to continue (subject to market conditions), benefitting also from rollover to higher rates

EUR	+100bps	-100bps	
Dec 2022 Sensitivity/Total NII	€121 mn	-€126 mn 34%	} €16 mn reduction
Dec 2023 Sensitivity/Total NII	€102 mn	-€110 mn 14%	

- Increase in total cost of deposits by 10 bps reduces NII by c.€19 mn
- 1 p.p. increase in Time and Notice deposit mix reduces NII by c.€1.5 mn p.a.³

Drivers of Reduced NII Sensitivity in 2023

- **Natural hedging:** Offering of base rate loans² providing “natural hedge” to cost of term deposits; c.€2.1 bn or 22% of loan book, hedging c.50% of household time & notice deposits
- **Fixed rate loans:** c.€245 mn new fixed rate loans in FY2023 (vs €6.5 mn in FY2022)
- **3-year Fixed Rate Reverse Repo⁴:** €400 mn as at 31 Dec 2023
- **Increased investment in fixed rate bonds:** €3.1 bn as at 31 Dec 2023 +54% yoy
- **Receive Fixed Interest rate swaps:** €950 mn as at 31 Dec 2023

Actions planned for 2024, subject to market conditions

- Intention for additional hedging of €4-5 bn by the end of 2024; average duration c.3-4 years
 - Partial hedge of Non Rate Sensitive Deposits through receive fixed interest rate swaps
 - Further investment in fixed rate bonds
 - Additional reverse repo⁴ transactions
- Continue offering fixed rate loans and Bank’s base rate loans²

Post structural hedging, NII sensitivity expected to decrease further by c.€30-€40 mn by the end of 2024

1) Based on key simplifying assumptions (refer to slide 78)

2) Linked to the average cost of household deposits in Cyprus with agreed maturities of up to 2 years as published on the website of CBC

- PAT¹ up 169% yoy mainly driven by increased net revaluation gains on own investments compared to volatile market conditions in FY2022; excluding net revaluations profit/(losses) on own investments and VEP costs, PAT¹ up 15% yoy mainly attributed to:
 - improved experience variance (mainly better claims experience)
 - reduction in loss component of the insurance contracts recognised upfront in line with IFRS 17
- Solvency ratio at 200% at 31 December 2023

Outlook

- Total Regular income to grow by CAGR c.6% in 2023-2025

To be achieved by:

- Pursuing new market segments
- Cross-sell opportunities with the Bank
- Continued strengthening of the agency force
- Further leveraging bancassurance
- Enhance investment fund offering via introducing a fund with an ESG objective
- Enhancing customer service via a holistic servicing model approach
- Developing further digital channel for servicing and efficient cost management

Transition to IFRS 17 from IFRS 4

IFRS 17 is an accounting standard. It does not change the economics of our insurance business

For more details on the transition to IFRS 17, please refer to 1Q2023 Group Financial Results presentation (slides 51-54)

Overview

- Accounting change impacting the phasing of profit recognition on insurance contracts
- Implementation on 1 January 2023 with retrospective application
- IFRS 17 **does not change the economics of the insurance contracts** but it does decrease the volatility of Group's insurance companies profitability
- **Profit is recognised over the lifetime of the contract** rather than substantially at inception, as was the case under IFRS 4

No expected impact on:

- Regulatory capital of the Group
- Insurance business solvency
- Lifetime expected profit of insurance contracts
- The Group's financial results over the longer-term; although near-term reported net insurance result expected to be lower
- Meaningful dividend generation from insurance business is expected to continue

Balance Sheet and Capital

Equity 31 December 2022 under IFRS 17 vs IFRS 4

- **Group's Total Equity reduced by €52 mn reflecting:**
 - Elimination of PVIF¹ and related tax effect; c.€101 mn decrease
 - Recognition of contractual service margin (CSM) liability; c.€42 mn decrease
 - Remeasurement of insurance assets and liabilities; c.€91 mn increase
- **Group's Tangible Equity increased by €64 mn**

2022 Profit & Loss

- **Decrease in Group's 2022 profit after tax by €14 mn reflecting:**
 - Deferral of new business profit
 - Assumptions changes on the valuation of insurance contract assets and liabilities
 - Less market volatility in P&L for unit-linked business under VFA² as part of the changes adjusts the CSM

1) Present value of in-force life insurance contracts

2) Variable Fee Approach (VFA)

NPE coverage ratio (previously 'NPE Provisioning coverage ratio')	The NPE coverage ratio is calculated as the allowance for expected loan credit losses (as defined) over NPEs (as defined).
NPE ratio	<p>NPEs ratio is calculated as the NPEs as per EBA (as defined) divided by gross loans (as defined).</p> <p>As per the European Banking Authorities (EBA) standards and European Central Bank's (ECB) Guidance to Banks on Non-Performing Loans (which was published in March 2017), non-performing exposures (NPEs) are defined as those exposures that satisfy one of the following conditions:</p> <ul style="list-style-type: none">(i) The borrower is assessed as unlikely to pay its credit obligations in full without the realisation of the collateral, regardless of the existence of any past due amount or of the number of days past due.(ii) Defaulted or impaired exposures as per the approach provided in the Capital Requirement Regulation (CRR), which would also trigger a default under specific credit adjustment, diminished financial obligation and obligor bankruptcy.(iii) Material exposures as set by the CBC, which are more than 90 days past due.(iv) Performing forbore exposures under probation for which additional forbearance measures are extended.(v) Performing forbore exposures previously classified as NPEs that present more than 30 days past due within the probation period. <p>From 1 January 2021 two regulatory guidelines came into force that affect NPE classification and Days-Past-Due calculation. More specifically, these are the RTS on the Materiality Threshold of Credit Obligations Past-Due (EBA/RTS/2016/06), and the Guideline on the Application of the Definition of Default under article 178 (EBA/RTS/2016/07).</p>
NPEs	<p>The Days-Past-Due (DPD) counter begins counting DPD as soon as the arrears or excesses of an exposure reach the materiality threshold (rather than as of the first day of presenting any amount of arrears or excesses). Similarly, the counter will be set to zero when the arrears or excesses drop below the materiality threshold. Payments towards the exposure that do not reduce the arrears/excesses below the materiality threshold, will not impact the counter.</p> <p>For retail debtors, when a specific part of the exposures of a customer that fulfils the NPE criteria set out above is greater than 20% of the gross carrying amount of all on balance sheet exposures of that customer, then the total customer exposure is classified as non-performing; otherwise only the specific part of the exposure is classified as non-performing. For non-retail debtors, when an exposure fulfils the NPE criteria set out above, then the total customer exposure is classified as non-performing.</p> <p>Material arrears/excesses are defined as follows: (a) Retail exposures: Total arrears/excess amount greater than €100, (b) Exposures other than retail: Total arrears/excess amount greater than €500 and the amount in arrears/excess in relation to the customer's total exposure is at least 1%.</p> <p>The NPEs are reported before the deduction of allowance for expected loan credit losses (as defined).</p>
